

Hello everyone!

My name is Yasmina.

I have arrived in the Republic of Belarus from the Republic of Uzbekistan.

Currently I am studying at Mogilev State A. Kuleshov University as part of a joint educational program between two educational establishments - Mogilev State A. Kuleshov University and Chirchik State Pedagogical University. My major is philology: Russian language and literature.

I have chosen to study in the framework of a collaborative educational process because this program provides a unique opportunity to gain knowledge from leading teachers of these two universities, expand my international experience and develop intercultural communication skills.

In addition this cooperation opens up more opportunities for practical work, internships and future employment at the international level. Importantly, upon graduation, I receive a diploma from two countries at once – the Republic of Belarus and the Republic of Kazakhstan. Education received in the Republic of Belarus is highly appreciated in the Republic of Uzbekistan.

What else attracts me to study in Belarus?

The teachers are real professionals in their field, they are attentive, help to understand complex issues and are always ready to support. Studying here means not only lectures and classes, but also interesting practical exercises, meetings with

experts and participation in scientific conferences and various events. All this helps me to develop and grow as a specialist.

As for the country, Belarus is an amazing place with a rich culture and history. The people here are very friendly, helpful and sincere. They are always happy to help me, and they pay attention to our foreign students. The warm atmosphere, good neighborliness and hospitality make my stay here very pleasant.

During my studies I traveled a lot around Belarus, got acquainted with its beautiful cities, nature, and traditions. It helps me to understand and love this country better.

Of course, I miss my home in Uzbekistan and my family, but now I feel like a part of this country and I am grateful for all the opportunities that are provided to me here.

Studying in Belarus gave me the opportunity to grow not only as a specialist, but also as a person, expand my horizons, learn new things and discover the world.

Overall, I am very pleased with this experience.

Belarus is a friendly and promising country, and I am sure that the knowledge and skills I have gained here will definitely be useful to me in the future.

Thanks for your attention!
